

A group of people walking in a hallway, overlaid with a semi-transparent orange filter. The text is centered and reads: 

**Bad communication and reporting inaccuracies have a big impact on the bottom line.**

A construction worker wearing a yellow hard hat and a striped shirt is looking at a tablet. The background shows a multi-story building under construction with scaffolding.

“The total costs of managing payroll, time, attendance & HR tasks are always underestimated. A medium size company will spend on average **\$97 per employee per month.**”

ADP Whitepaper - 2012

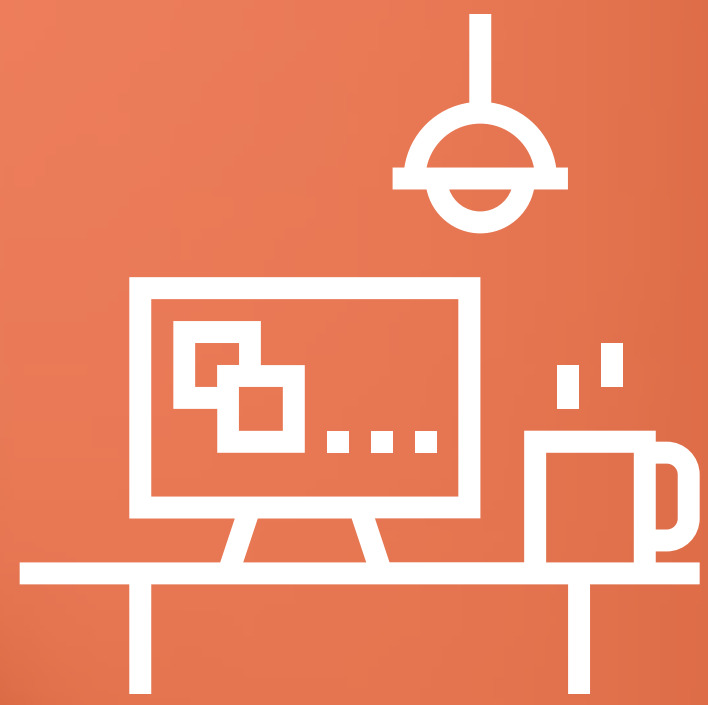

This **\$97** monthly cost per employee does not account for:

- **Timesheet Guessing & Inaccuracies**
- **Lost Notes & Misplaced Details**
- **Un-Optimized Job Quoting**

# Punchtime

Accurate Reporting and Project Communication

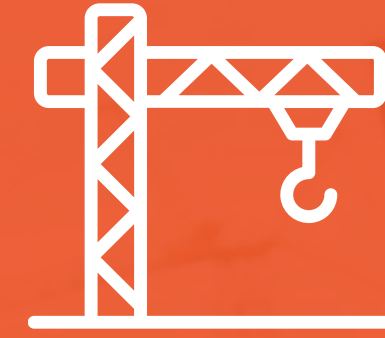

**Head Office**

**Punchtime**

**Jobsite**

**Smart Projects**

**GPS Verified  
Data**

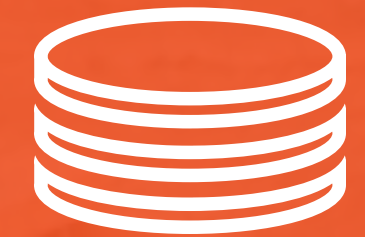

**Smart Notes**

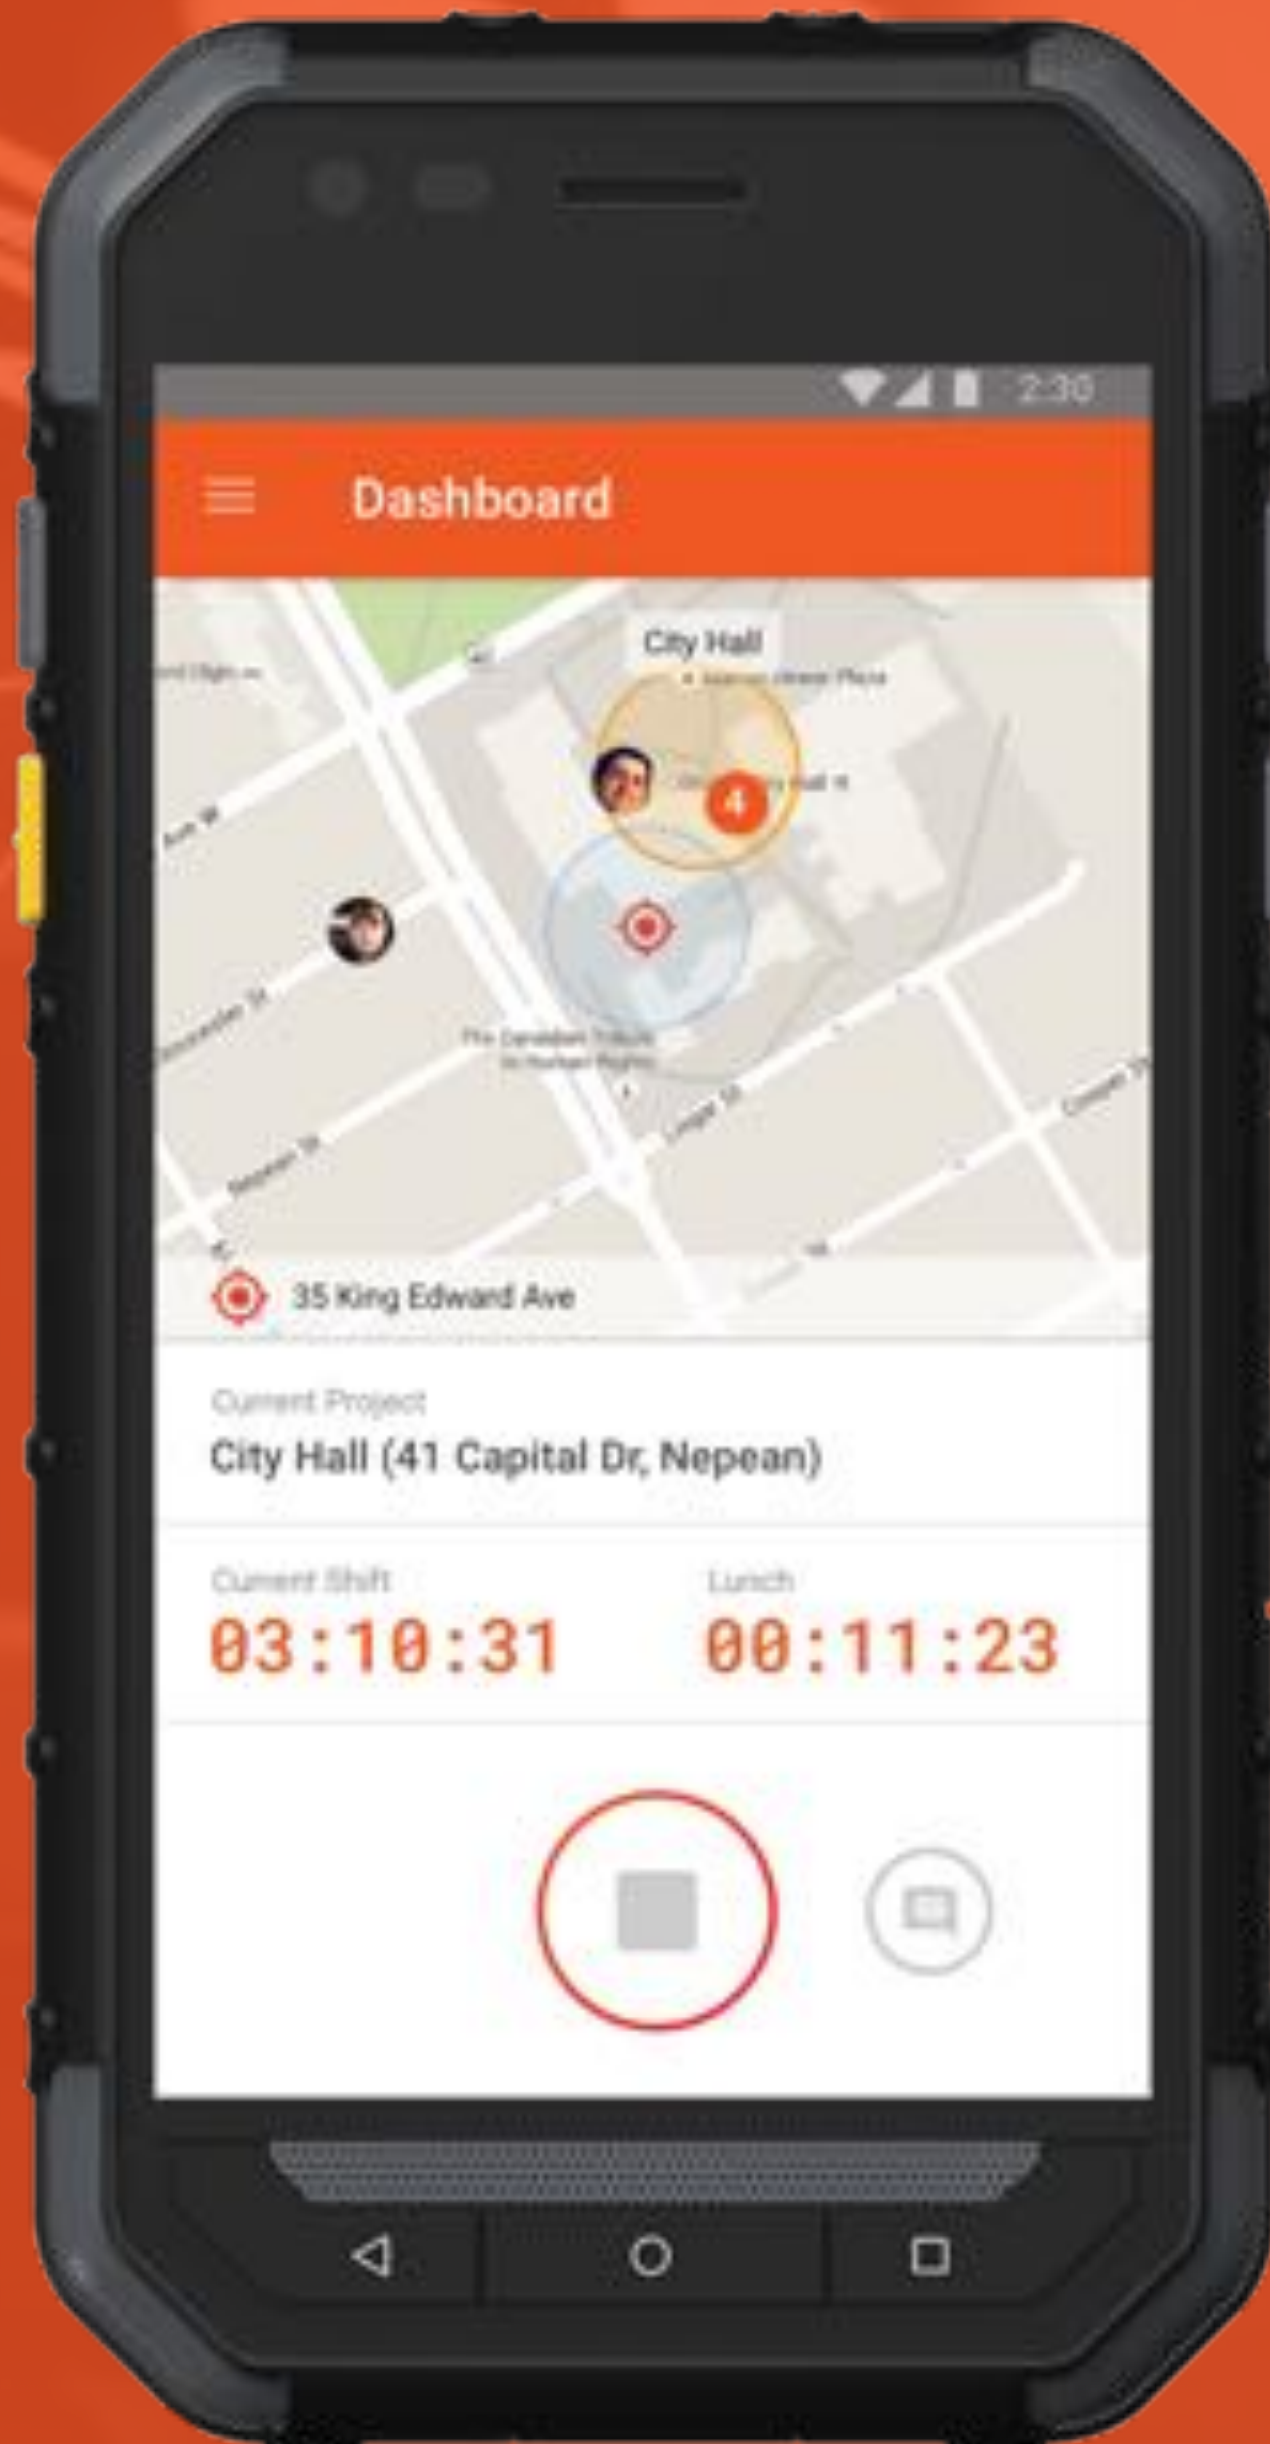

**Accurate Time  
& Attendance**

**Valuable Metrics**

**Simplified Payroll**

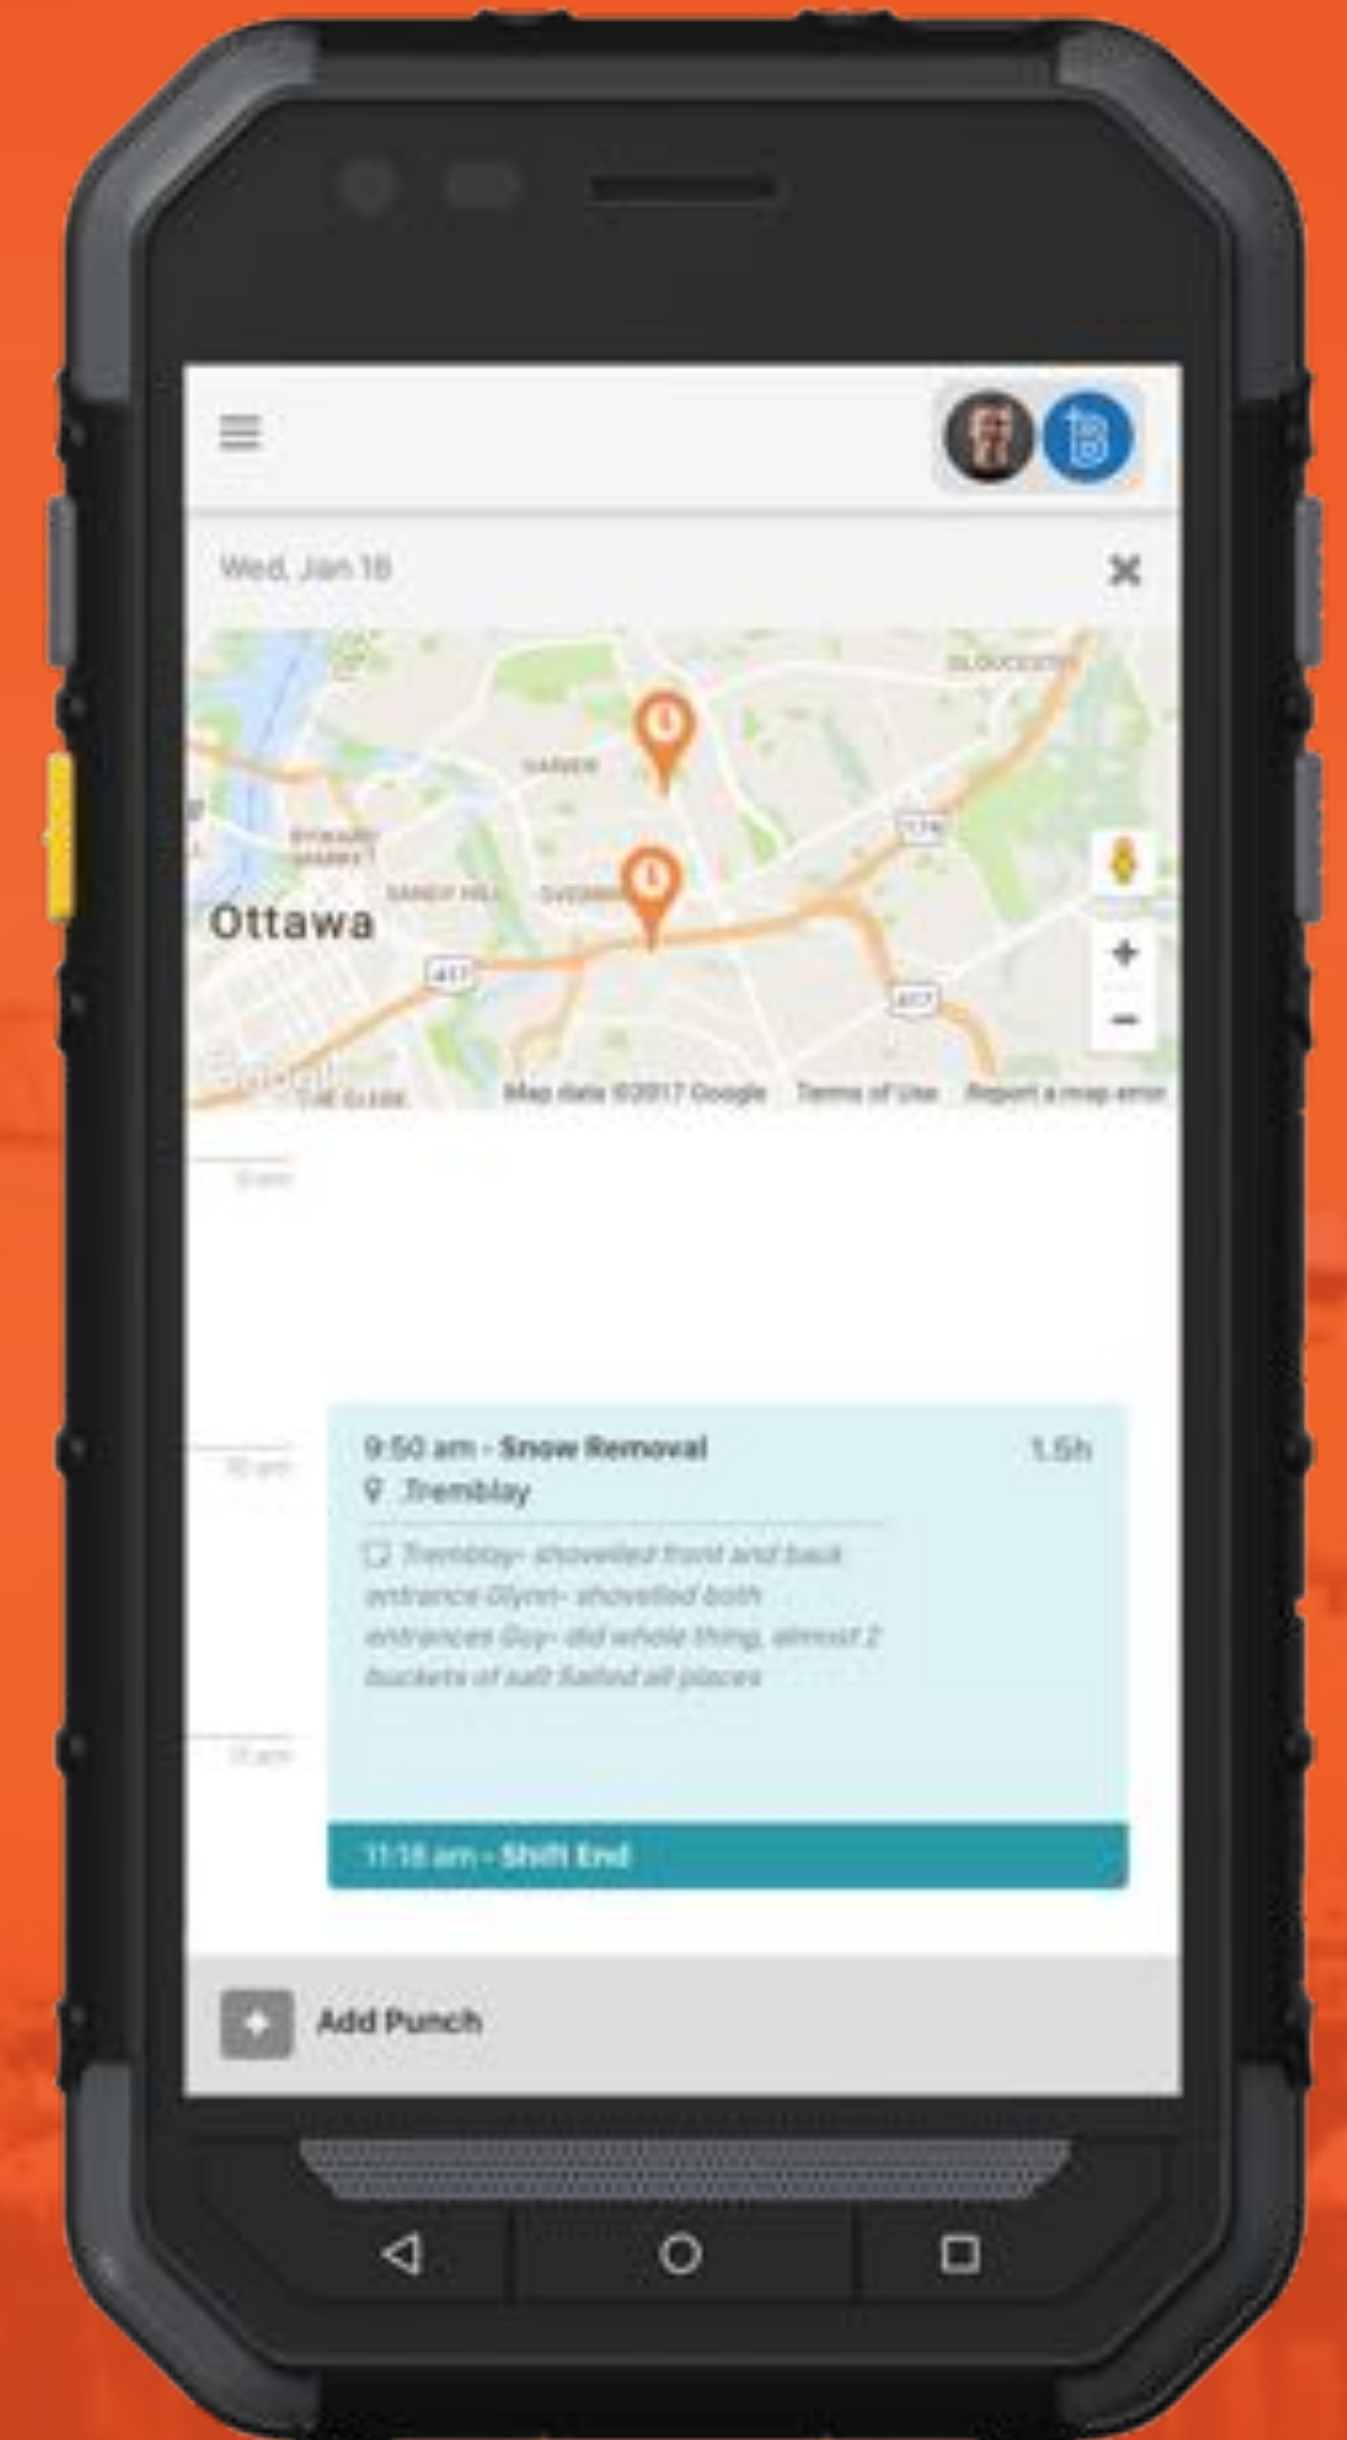

# A Tool to Fix Flawed Timesheets

Secure time & location data gives everyone the confidence that the hours worked are accurate and fair.

# Shared Location Awareness

Reduce redundant communication and know everyone is where they are supposed to be.

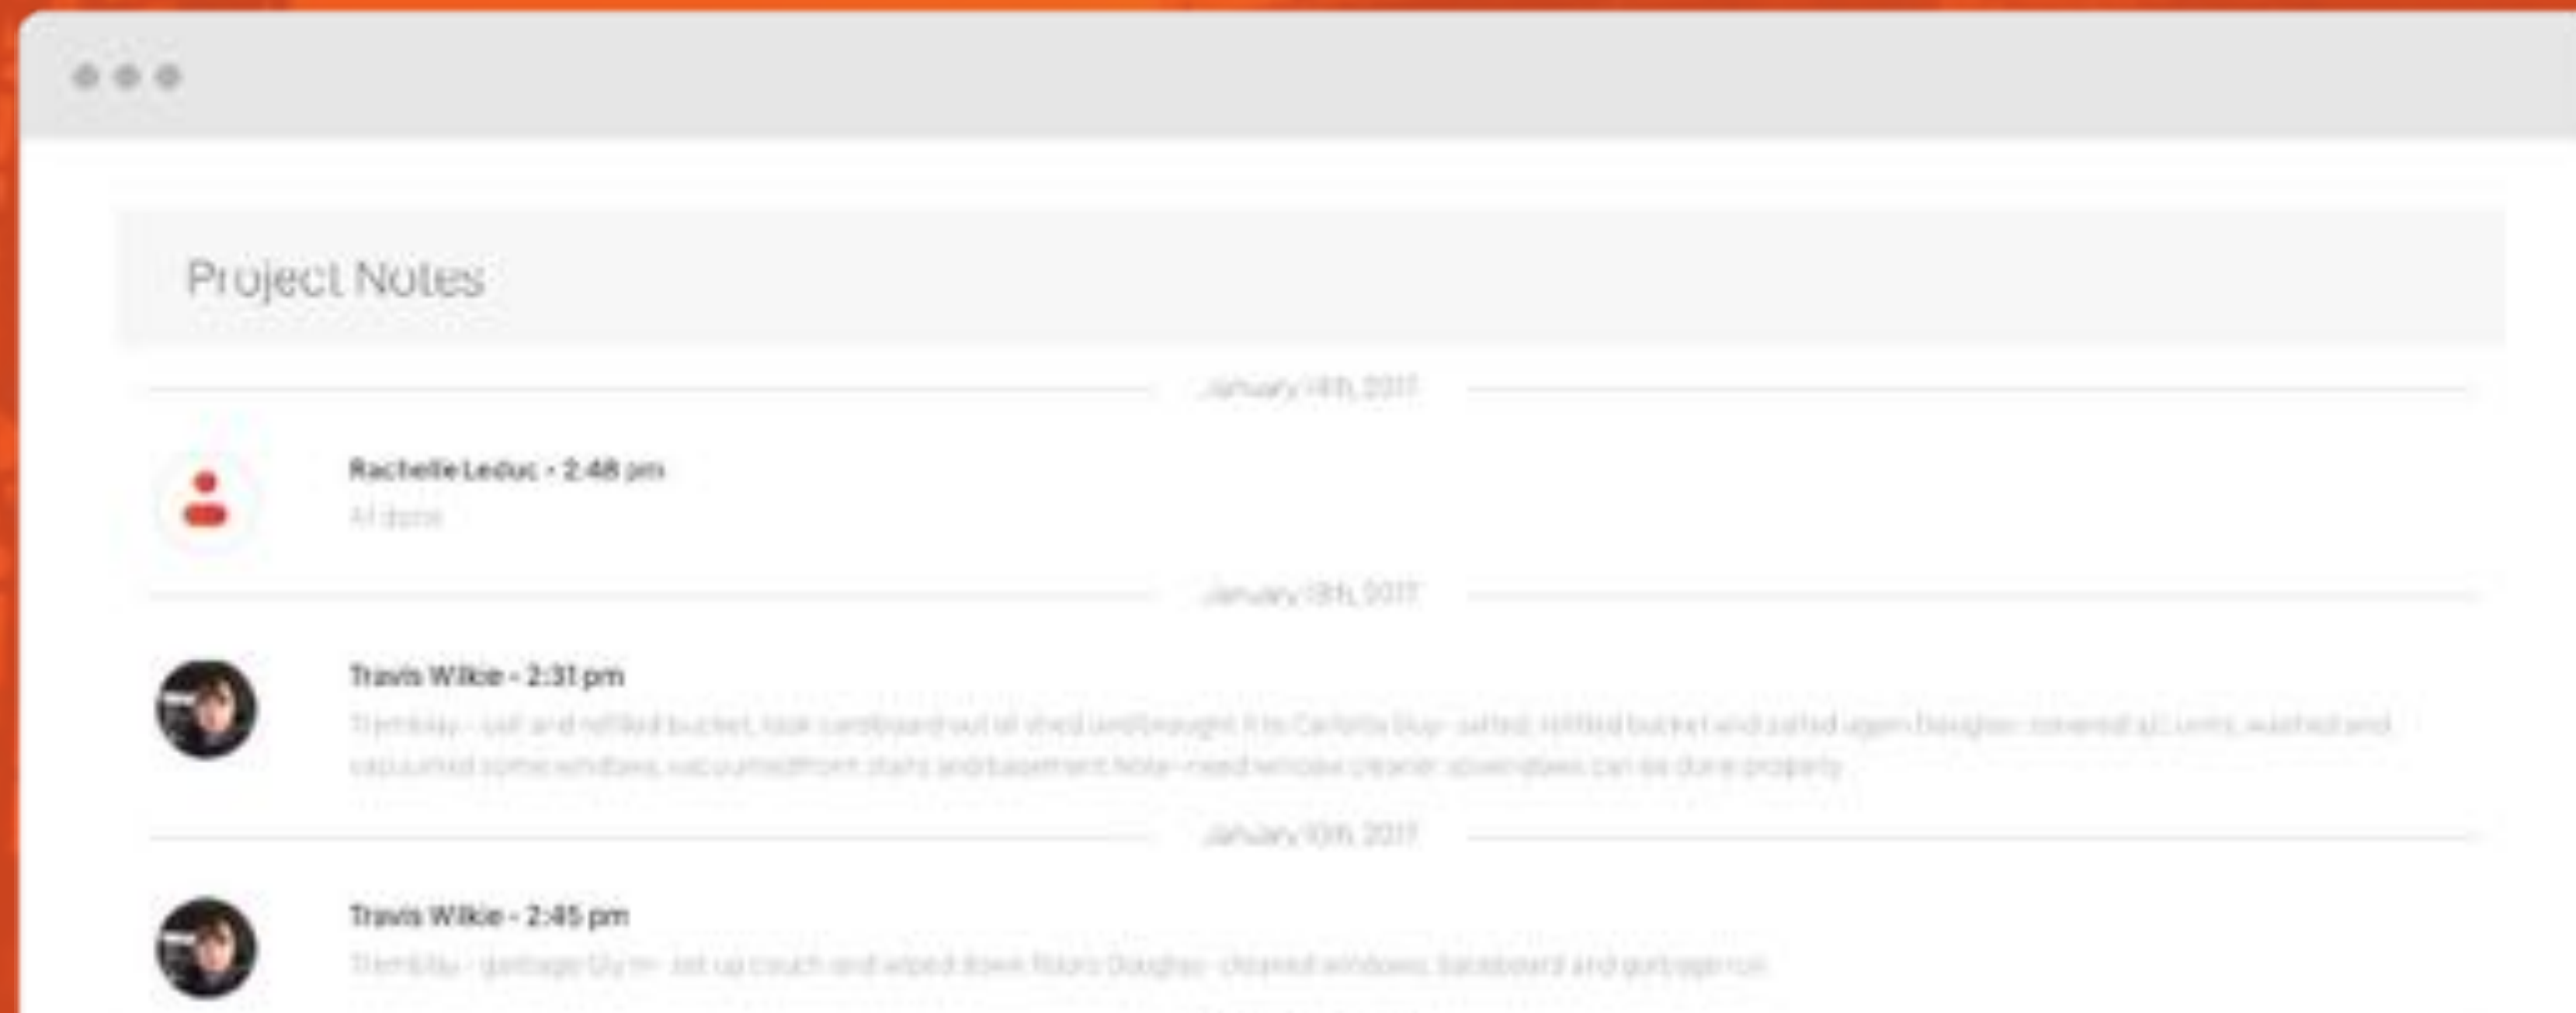

# Easy Project Tracking and Metrics

Get a clear picture of time spent on projects.  
More than just totals, the project view is  
great for job costing and progress tracking.

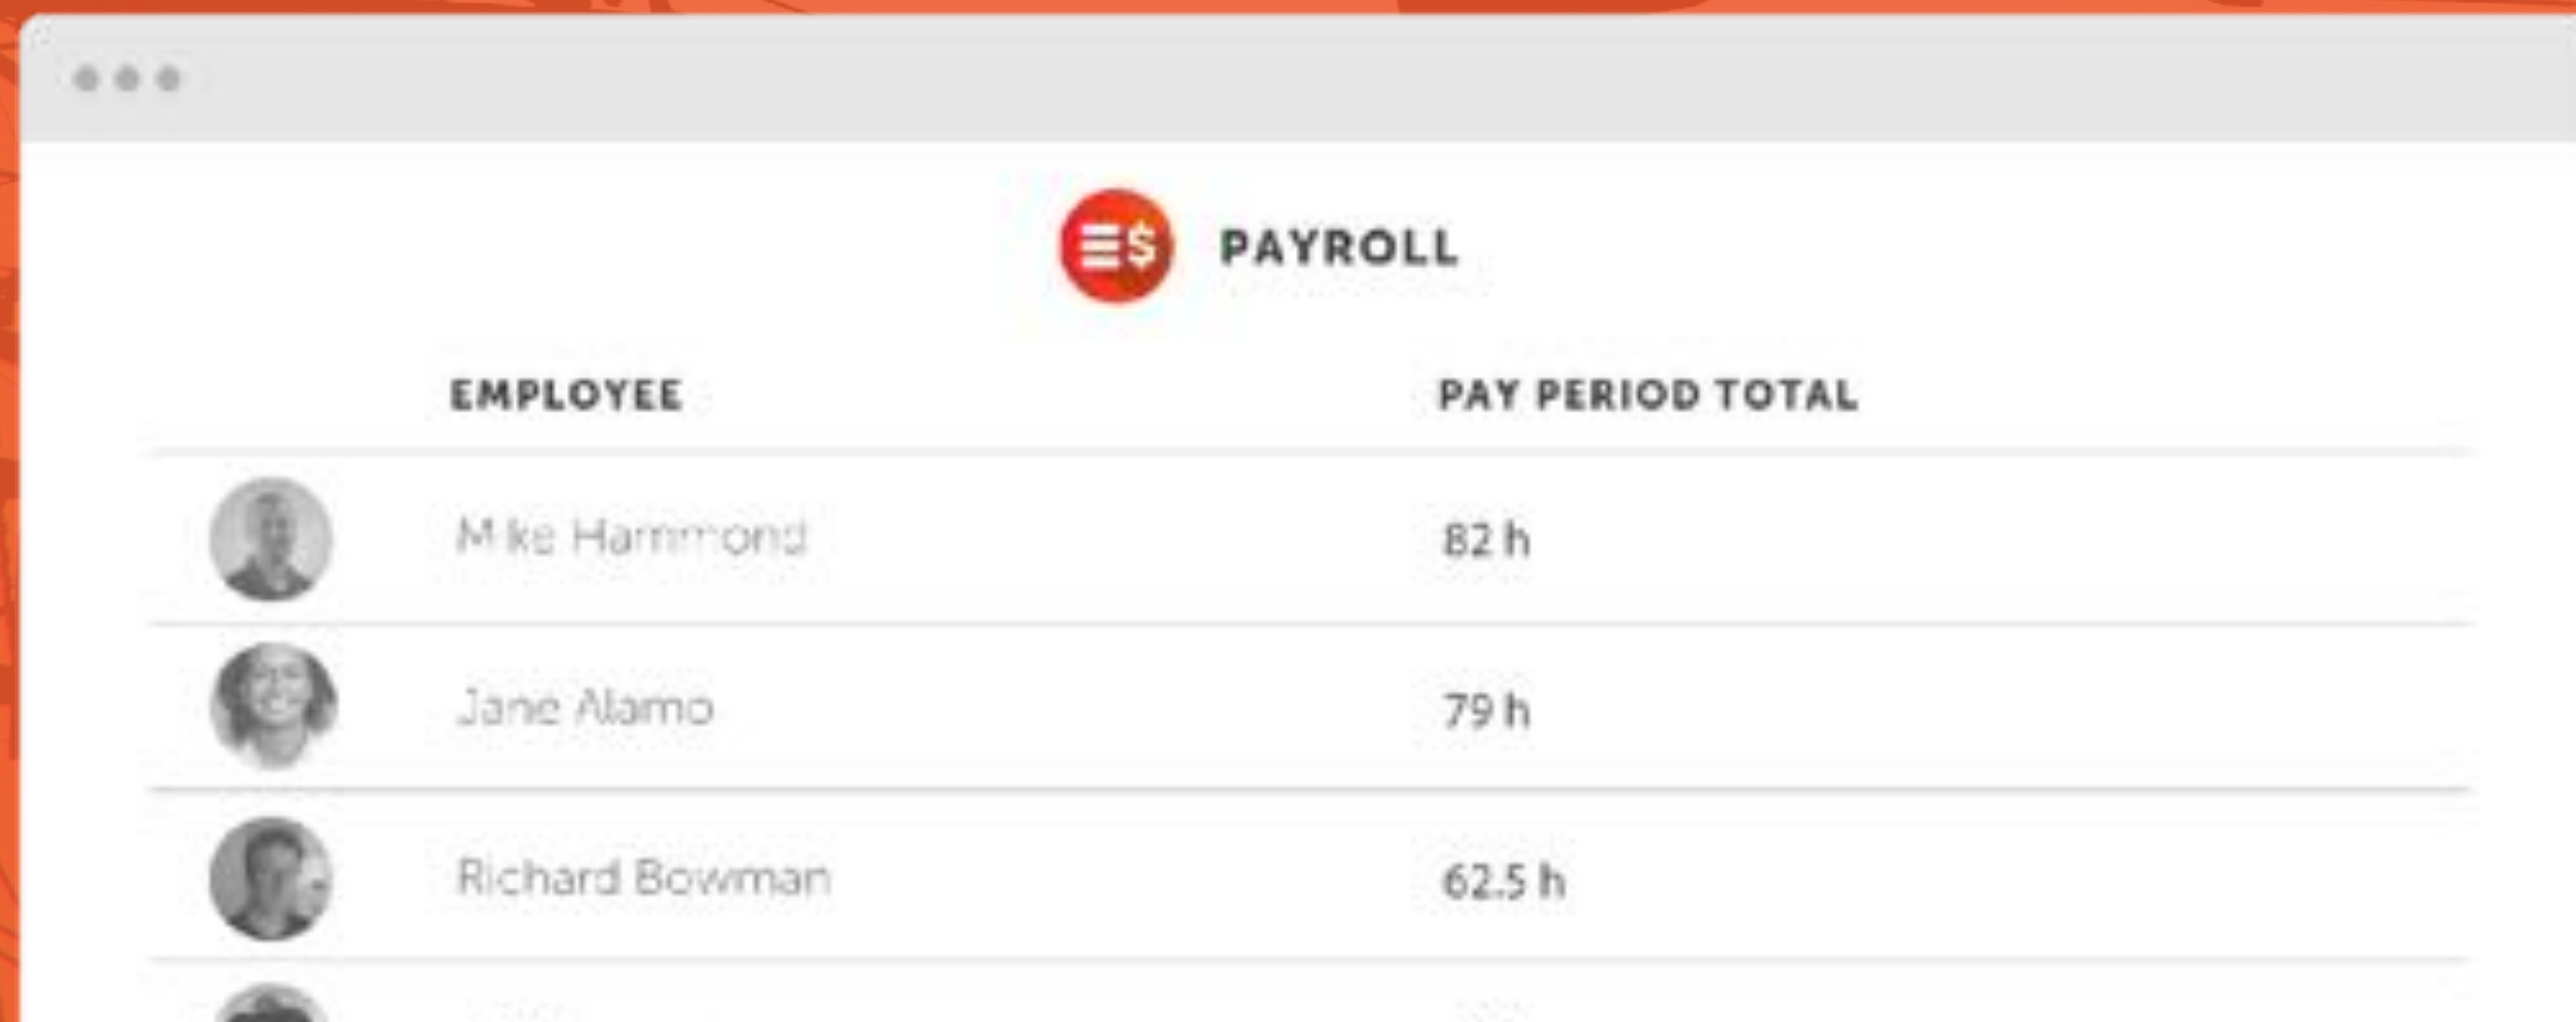

# No More Lost Job Notes

Smart notes keep the jobsite, management and head office connected. Notes in real time and coffee stain free.

# Simple and Accurate Payroll

With time & attendance information at your fingertips, payroll is a breeze. Punchtime eliminates work and errors from the process.

The screenshot shows a web application window with a title bar containing three dots. The main content area features a red circular icon with a white dollar sign and the word "PAYROLL" in bold. Below this is a table with two columns: "EMPLOYEE" and "PAY PERIOD TOTAL". The table lists three employees: Mike Hammond (82 h), Jane Alamo (79 h), and Richard Bowman (62.5 h). A fourth row is partially visible at the bottom.

EMPLOYEE	PAY PERIOD TOTAL
 Mike Hammond	82 h
 Jane Alamo	79 h
 Richard Bowman	62.5 h
	

Punchtime can reduce the \$97 per month, per employee cost of payroll administration by as much as 50%.

A \$35/hr wage with timesheet guesses and rounding errors 7 minutes at a time, can cost an excess of \$2,041 annually.

.....

Punchtime eliminates guessing, errors and inaccuracies, and costs only \$48 per employee annually.

A \$48 spend per employee on Punchtime yields a direct return of \$2,623 annually.

**ROI = 5,464%**
